HIVE EGYPT
CREATING VALUE

OUR PORFILE

WHERE VISION
MEETS EXECUTION

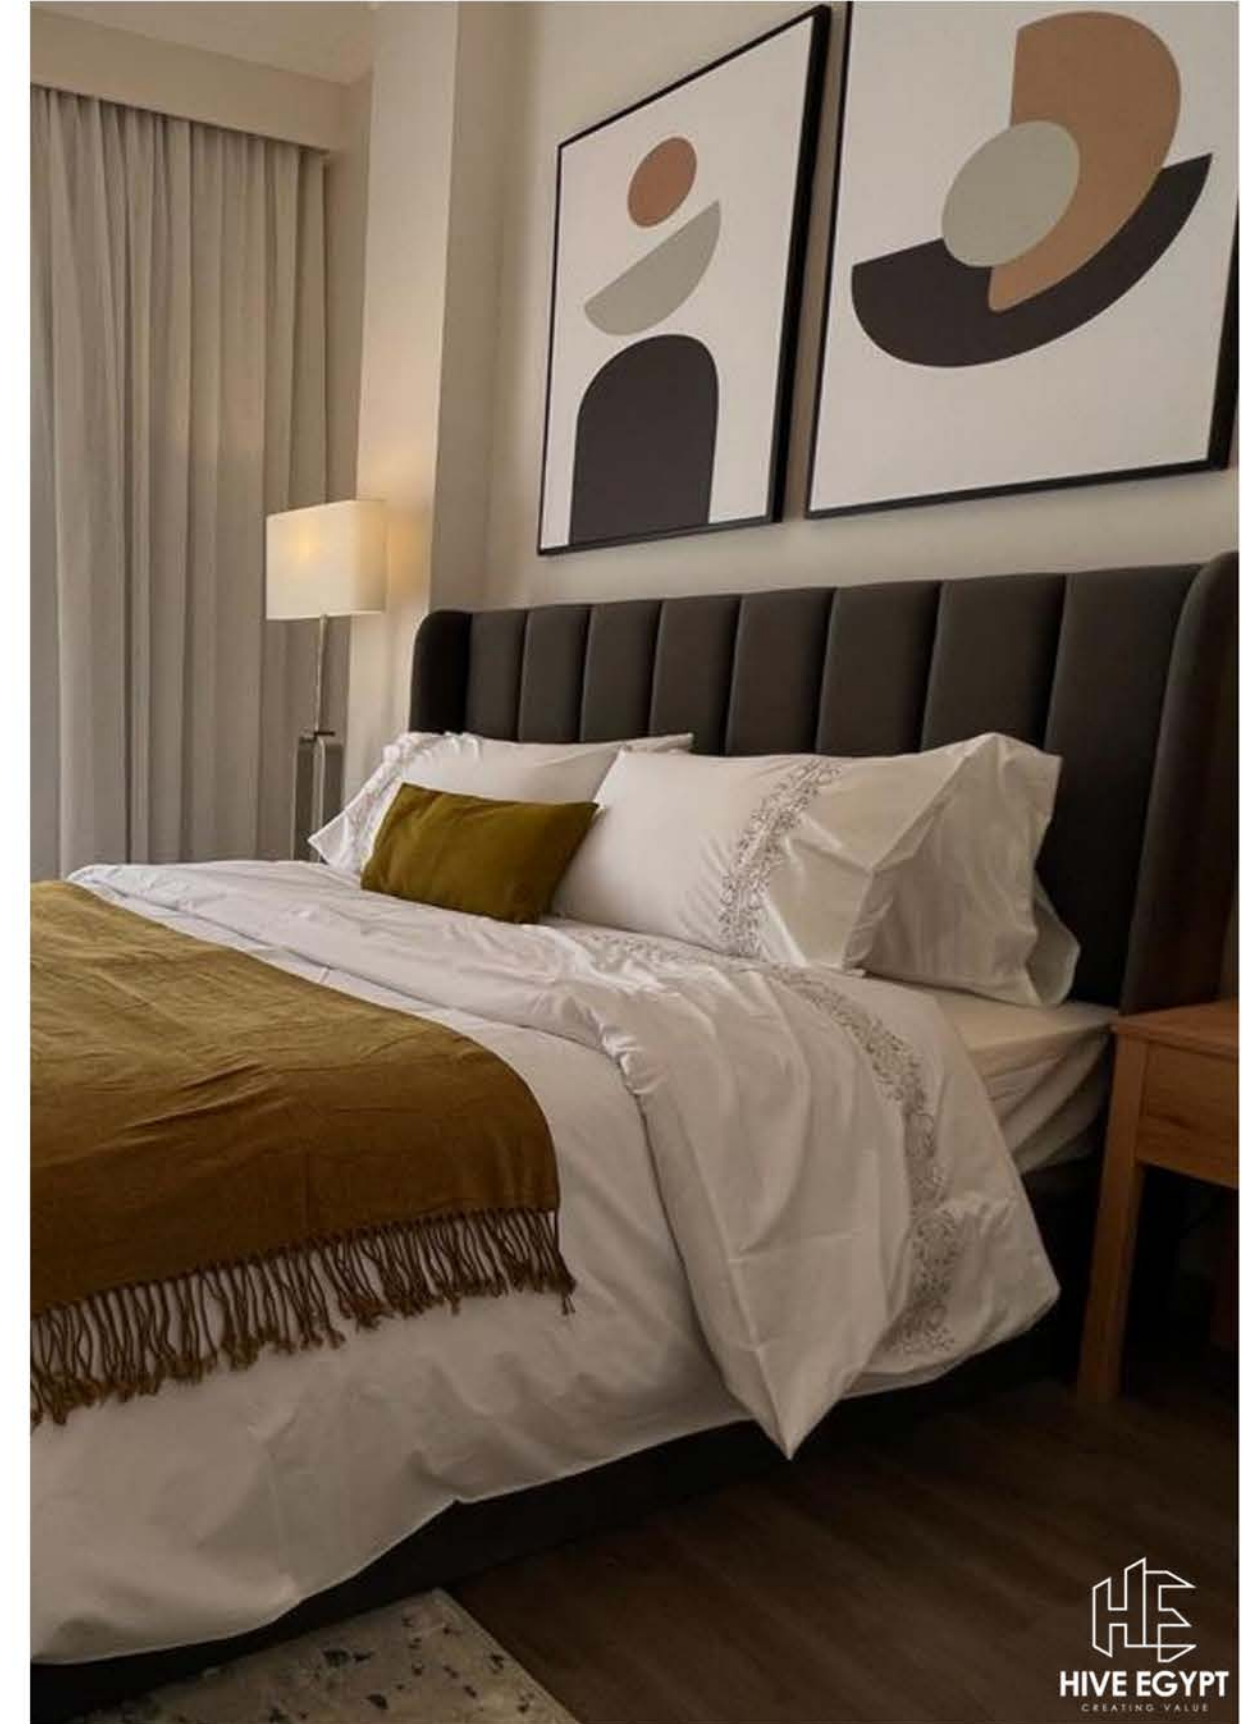

1. About HIVE EGYPT Factory

Our factory operates with a dedicated team of 18 to 22 employees and workers, reflecting a well-balanced, medium-sized operation that emphasizes efficiency and teamwork. The workforce is organized into four key departments to streamline the production process: wood manufacturing, metal production, painting and finishing, and quality control. Each department plays a vital role in ensuring our artworks and installations meet the highest standards. The wood and metal production teams handle the creation and shaping of raw materials, while the painting and finishing department adds both aesthetic value and refined detail. Finally, our quality control team ensures that every piece delivered aligns with our commitment to excellence and craftsmanship.

2. Our Team and Departments

Our factory operates with a dedicated team of 18 to 22 employees and workers, reflecting a well-balanced, medium-sized operation that emphasizes efficiency and teamwork. The workforce is organized into four key departments to streamline the production process: wood manufacturing, metal production, painting and finishing, and quality control. Each department plays a vital role in ensuring our artworks and installations meet the highest standards. The wood, metal, and mirror production teams handle the creation and shaping of raw and decorative materials, while the painting and finishing department adds both aesthetic value and refined detail. Our quality control team ensures that every piece delivered aligns with our commitment to excellence and craftsmanship.

3. Production Capacity and Timelines

Our production capacity is tailored to meet high-volume demands while maintaining precision and quality. While actual output depends on the specific quantity and complexity of each project, our factory has consistently demonstrated the ability to handle large-scale orders efficiently. On average, we are capable of producing artwork and furnishings for 500 hotel rooms within 45 days. For example, in our most recent project, we successfully completed production for 381 rooms in just 35 days and completed the full installation within an 8-day period.

Our experienced installation team is equipped to finalize setups for 500 rooms in 7 to 10 days, depending on the level of detail and variety of artwork required in each space, ensuring every room is delivered on time and up to standard.

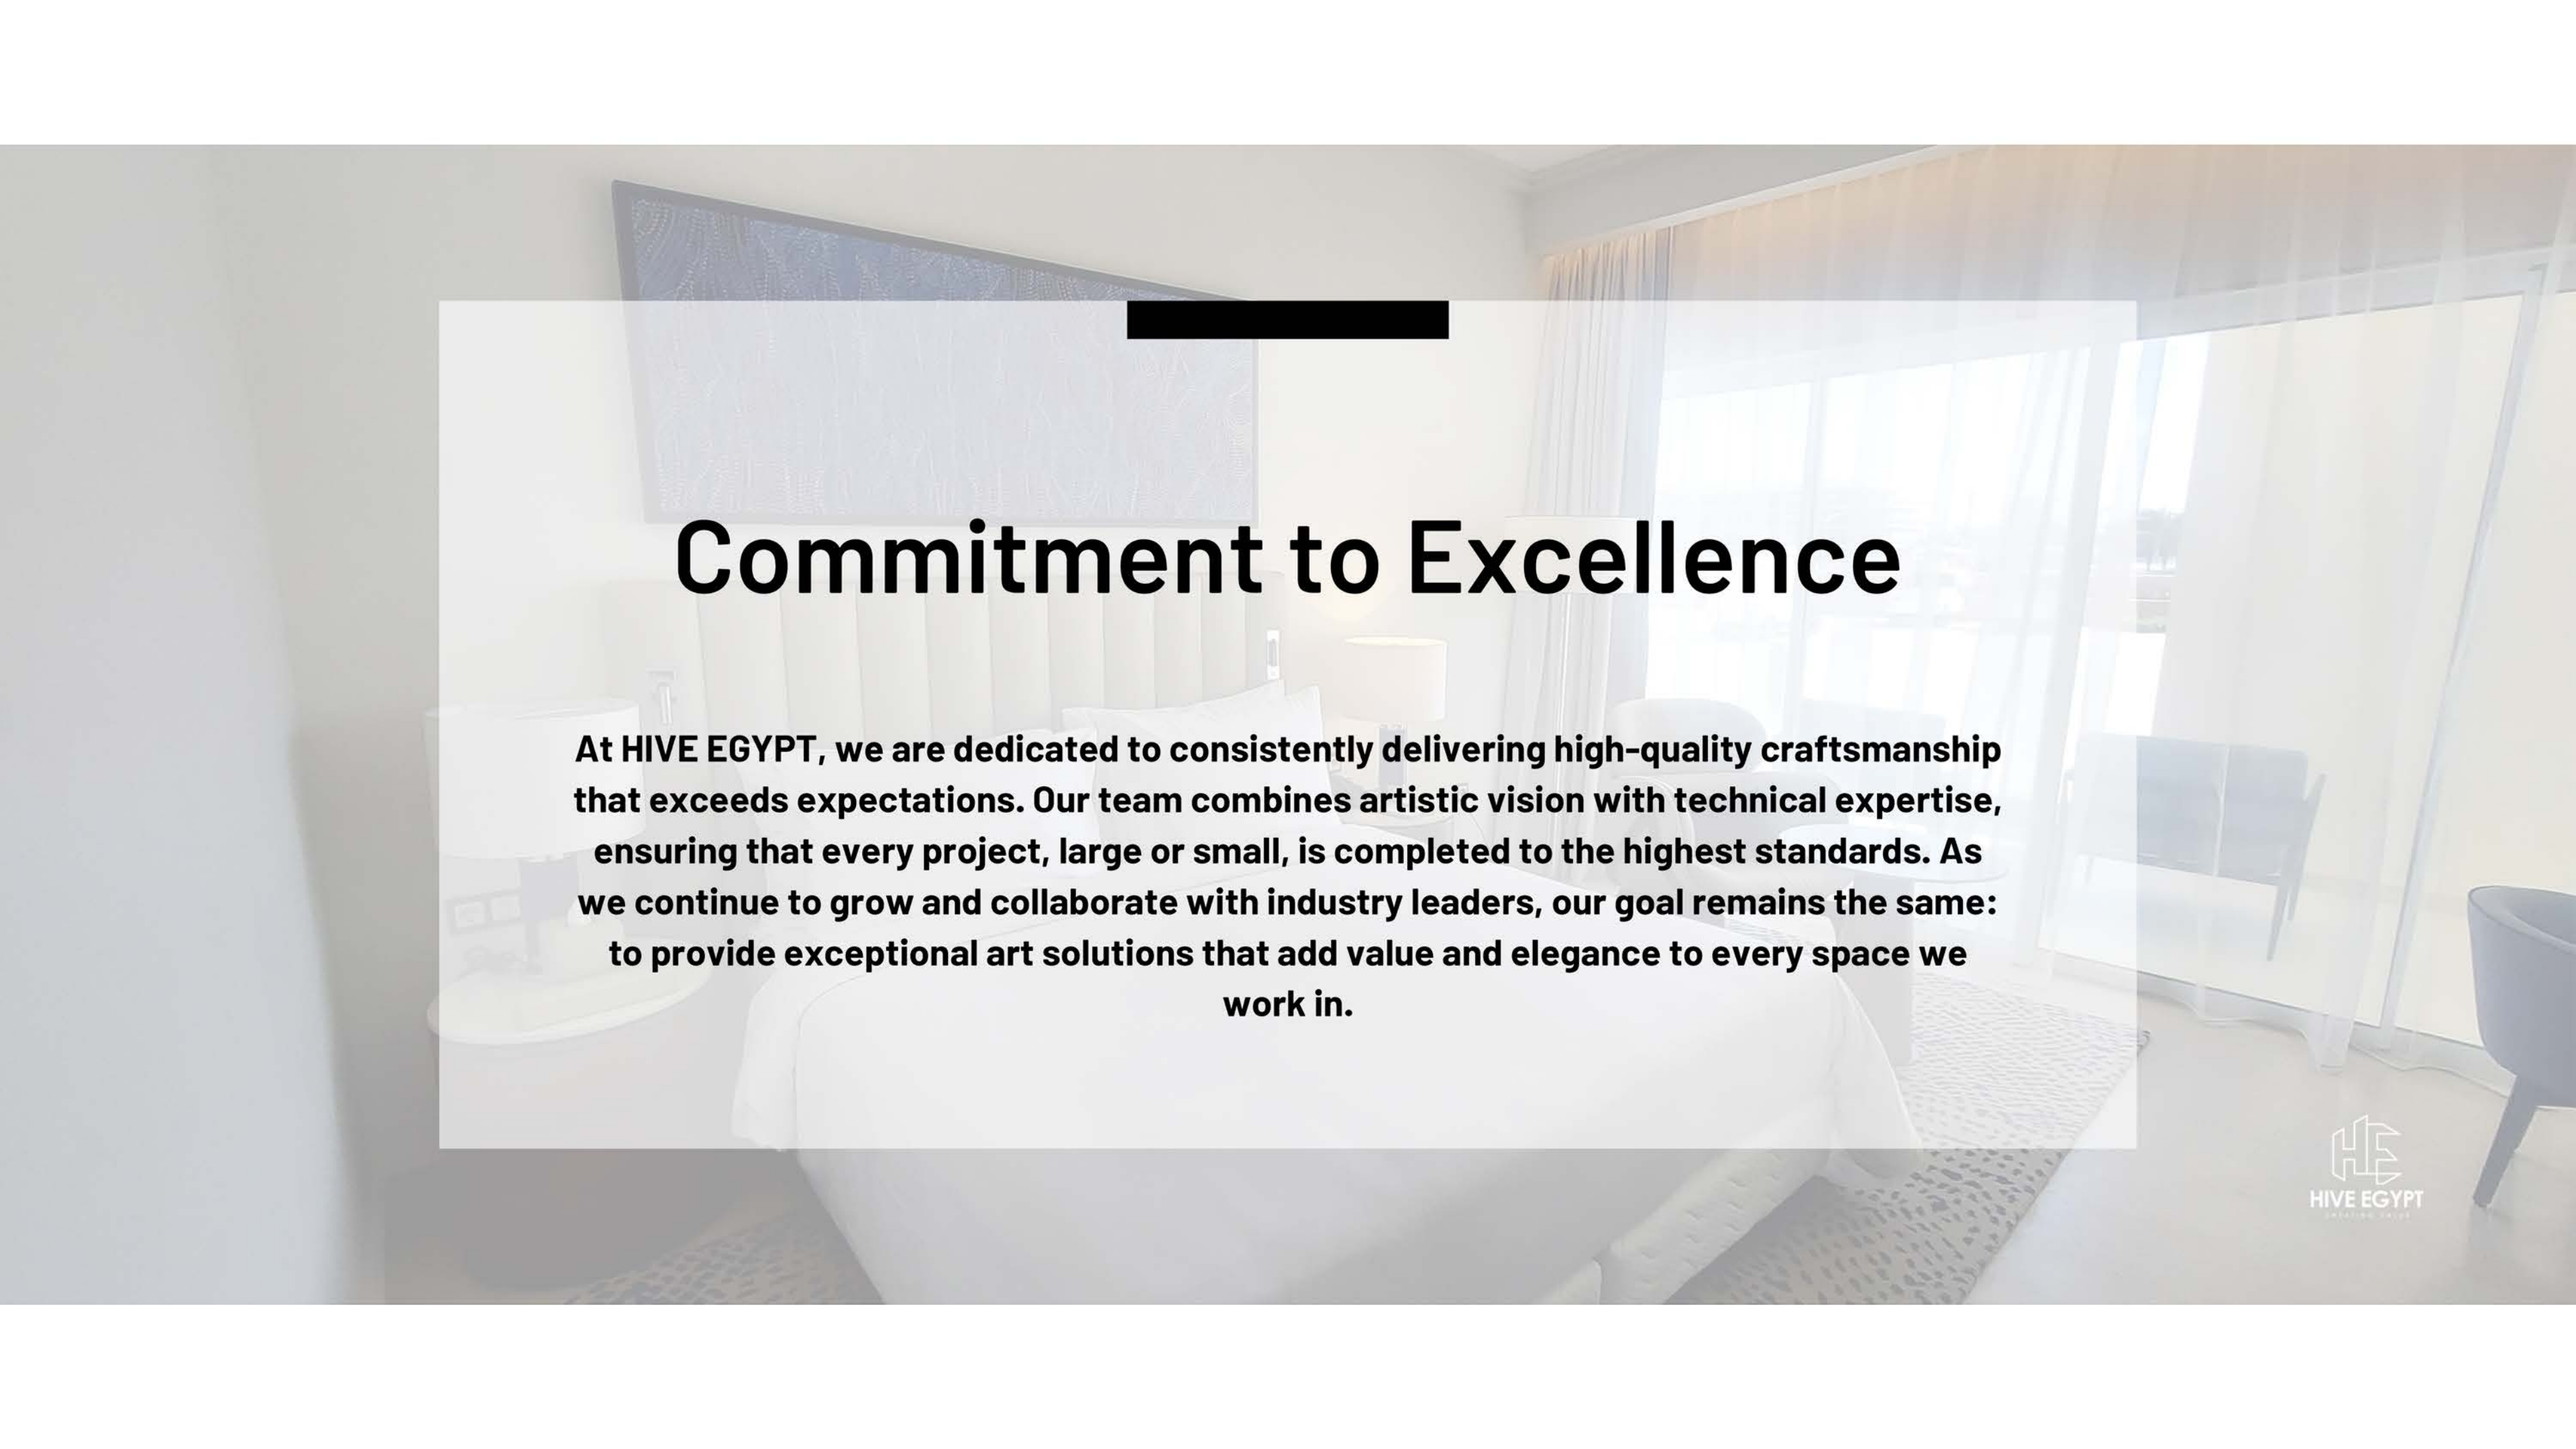

4. Latest Projects

Over the years, HIVE EGYPT has proudly contributed to some of the most prestigious hospitality and real estate developments in Egypt. Our latest projects include:

- Waldorf Astoria Sheraton - (Tam Gallery)
- DoubleTree by Hilton - Mangroovy El Gouna - (Tam Gallery)
- Palace Suite at the Sheraton Miramar El Gouna (Orascom)
- The Address - (Motion Art Gallery)
- New Ras El Hekma - Talaat Moustafa Group
- Sofitel Cairo Downtown Nile - (Tam Gallery)
- Gaya - Al-ahly Sabour
- Cairo airport
- Intercontinental Citystars
- Hilton Heliopolis (Tam Gallery)

These recent collaborations highlight our ability to deliver premium, tailor-made art and furniture solutions at scale, while maintaining our commitment to quality and timely execution.

A modern, bright hotel room with a bed, desk, and large window. The room is clean and well-lit, with a large window on the right side. The text is overlaid on a semi-transparent white box.

Commitment to Excellence

At HIVE EGYPT, we are dedicated to consistently delivering high-quality craftsmanship that exceeds expectations. Our team combines artistic vision with technical expertise, ensuring that every project, large or small, is completed to the highest standards. As we continue to grow and collaborate with industry leaders, our goal remains the same: to provide exceptional art solutions that add value and elegance to every space we work in.
